SOURCE: [REDACTED]

On 10 May 1951, a radio installation with a braced mast and two wooden huts was seen from the road leading from Alt-Ruppin (N 53/Z 49) to Nietwerder (N 53/Z 49). A platform with three horizontal dipoles was located in the corn field between the radio beacon and the road. The platform was mounted on poles about 50 cm high. *

Comment. The radio installation is most likely the outer landing beacon of Neuruppin airfield. The exact location of the radio mast was previously reported

25X1C [REDACTED] who also reported that two platforms with two dipoles each were located near the radio mast. [REDACTED] For sketch of radio installation, see Annex.

25X1A Annex: 1 - sketch on ditto.
